

SEARCH FOR NEW SEABIRD BYCATCH SOLUTIONS

PARTICIPATING IN THE INTERNATIONAL MITIGATION MENTOR PROGRAMME

Do you have a new idea to keep seabirds away from fishing vessels that you would like help to develop? If so, Southern Seabird Solutions would like to hear from you.

We want to help fishers test and develop their promising ideas to keep seabirds away from fishing gear. We can:

- provide you with advice on development steps
- assess the potential of your idea
- suggest improvements
- assist with contacts who have the expertise you need
- suggest possible funding sources
- and other support

We'll make every endeavour to help progress ideas with potential.

TELL US ABOUT YOUR SEABIRD-SAVING IDEA

(Remember it can be a piece of technology or just a practice that you use to keep birds away)

<p>What do you call it?</p>	
<p>Explain your idea</p> <p>Particular fishing method it works for?</p> <p>How does it work?</p> <p>Particular bird species it works for?</p>	

<p>What do you see as the next steps in developing your idea?</p>	
<p>What advice and support do you require to develop your idea?</p>	
<p>Other information:</p> <p>Draw us a picture if that helps or even send us a photo of a prototype or a video of your idea in action. This will help us understand your idea and how it might work. Feel free to attach other sources of information if the space here isn't big enough.</p>	
<p>Is there anything else you would like to tell us?</p>
